LADIES' DELIGHT!
RELIEF COME AT LAST.
WISNER'S Washing Machine, Patented Sept. 25th, 1855, is a large tub with zinc fitted on the bottom, also on the underside of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands at the West within the past year, who pronounce it to be the best labor saver ever offered to the public. It has been tested sufficiently long to prove that when ever it has been used properly, it will tell a better story for itself than I can communicate. Give it a trial, and you will be entirely satisfied of its superior merit.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
NO. 75 STATE, OPPOSITE KILBY ST.,
BOSTON.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents
All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON," *Late Commissioner of Patents.*
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDM. BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.
"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."
From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

NEW AGRICULTURAL SETTLEMENT.
TO ALL WANTING FARMS,
A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD, NEW JERSEY.
An old estate consisting of several thousands of acres of *productive soil* has been divided into Farms of various sizes, *suited* to the purchaser. A population of some *Fifteen Hundred*, from various parts of the middle States and New England have settled there the past year, improved the places, *and raised excellent crops*. The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables*. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement*. The result has been, that within the past year, some *three hundred houses* have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.
THE MARKET,
as the reader may perceive from its location, is the
BEST IN THE UNION.
Production bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.
In locating here, the settlers has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in *a settled country where every improvement of comfort and civilization is at hand*. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reserved,) he has schools for his children, *divine service*, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown.—The result of the change upon those from the north, has generally been to restore them to an excellent state of health.
In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.
The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvement and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.
There are two daily trains to Philadelphia, and to all settlers who improve, THE RAILROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS.
THE TOWN OF HAMMONTON.
In connection with the agricultural settlement, a nice and thriving town has naturalarisen, *which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business* could be carried on in the place and market to good advantage, also cotton business, and manufactories of *agricultural implements, or Founderies for casting small articles*. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had from $100 and upwards.
The *Hammonton Farmer*, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.
Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid Come to the head of Grave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7 1-2 A. M., or 4 1-2 P. Local Facts and Gossip.

The Fire Department of Newport.

We venture the assertion that throughout all New England there is not a better organized fire department than that of this city, and under the marshalship of our energetic Chief Engineer and his equally energetic Assistants, they may be safely relied on in any emergency which may call them into action. With eight engines, manned by men drilled to their duties, we have little to fear from the destroying element with which they are appointed to do battle.

This town has been exceedingly fortunate in the matter of fires, taking into consideration the combustible nature of the materials of which the town is principally composed, which is partly owing to the great care exercised by the inhabitants, but principally to the exertions of the firemen in arresting the progress of the devouring element.

The highly combustible nature of our city should lead us to see to it that all our arrangements for extinguishing fires are of the most perfect order, as very much depends, in such cases, on arresting the progress of the devouring element at the earliest possible moment. A bucket of water will do at the inception of a fire, what all the engines in town could not accomplish fifteen minutes later.

Although, as we have said, the fire department of Newport is not lacking in any degree in efficiency, yet their successful operation may be in a great degree frustrated by the thoughtless action of outsiders, whom the excitement of a fire seems to make crazy. We have not the quiet way of dealing with fires here, which characterizes the fire department of larger cities, as Boston, New York and Philadelphia, where the bells alone are deemed sufficient to spread the alarm of a fire when they are once started, and the management of it is afterwards left to the fire department. Here, the moment the alarm is given, the throat of every man and boy in town seems to be opened, as though they considered it an especial privilage to be permitted to shout themselves hoarse in their efforts to outdo their fellows in making a noise. All this is nonsense, and worse than nonsense, for it confuses the firemen and drowns the sound of the bells and makes turmoil where the strictest order is required. An instance of this occurred at the recent fire in William Street, which might have been productive of the most serious consequences, where people were shouting "Fire" and "All out" at the same moment, till the firemen did not know what to do, and came to a standstill, the fire all the time getting headway. The proper way to manage these things, would seem to be, to start the alarm, get the firemen out, and afterwards leave the rest to them and the bells.

Another piece of folly is the continual ringing of the bells, thus misleading the firemen, and undeciding them which way to take their machines. When a sufficient alarm has been given to get out all the engines, let the bells cease ringing except that nearest the fire, which would serve as a guide to the firemen.

By adopting some system in those matters, the city may at some time be saved from a most disastrous conflagration, which otherwise must inevitably sooner or later threaten us.

☞ We extract the following items from the Market report of the *Taunton Gazette*, showing the prices of beef there, which our readers can, if they choose, compare with the prices paid for the same article here:

Roasting pieces, 12 to 14 cts per lb—Sirloin 14—Round 13—Corned 7 to 10—Salt Pork 12 1-2—Hams 12 1-2—Chickens 68c a $1.00 per pair—Fowls 17c per lb—Veal 7 to 10c—Mutton 12 to 14c—Chops 14—Sausages 10 a 12 1-2—Tripe 7 to 10c—Tongues 14 to 17c—Liver 6c—Lamb 14 a 17c—*Pigs Feet* 12 1-2c.

We presume the wholesale prices of beef are about the same in Taunton as in Newport—at least we cannot see why they should be lower.

SMALL VESSEL FOR A LONG VOYAGE.—We learn that the schooner William Newton, of this port, will make a voyage to Jamaica, W. I., as soon as she can be fitted for that purpose, under the command of Capt. Mayberry of this city, who was a ship master forty years ago. The William Newton is about 30 tons burthen, and has proved herself a capital sea-boat on the route between Newport and Block Island.

THE END OF THAT VESSEL.—The hull and materials of the sloop Shepherdess, wrecked on the shore at Castle Hill, were sold at auction Saturday by John H. Gladding, for $150, which is the last of that craft till she is broken up.

WILL GIVE IT UP.—Since the sinking of the boiler of propeller Curlew in 18 fathoms of water, it has been decided to abandon it to the companionship of the fishes.

Report speaks of a Newfoundland dog who has been seen and heard lately at the foot of a precipice on the Niagara River, just below the Suspension Bridge on the Canada side. The precipice is some two hundred feet high and the ledge at the foot upon which the animal is said to be is inaccessible except by mechanical assistance. He is supposed to pick up his precarious living from the fish and small animals on his "beat," which is only half a mile in length. His howling lamentations from his rocky retreat are often heard at midnight, and a daring attempt to approach and save him, was rendered fruitless by his ferocity. An additional romance has been thrown around his fate by the story that he bemoans the loss of his master, lost by the same catastrophe which placed him in his present position.

An attempt was made on Saturday to fight a duel at Hoboken. The principals were Wm. Mulligan, the pugilist, and Captain De La Reviere, the Crimean and Mobilian hero. The affair fell through, as is alleged, in consequence of the unwillingness of the Captain, who was the challenger, to come to time after both parties with their seconds had met on the ground.

The horses, vehicles and stable furniture belonging to Lane, the dashing young defaulter of the Fulton Bank, were sold at auction on Tuesday, and brought nearly $4000

Paris Correspondence of the Daily News.

PARIS, Sept. 23d, 1859.

It has been repeatedly said, that Napoleon III. had made at Villafranca, what the French call a *pas de clerc*, or in other words, a great blunder; but those who have watched the proceedings of the Emperor of the French, these last ten years, give him credit, on the contrary, for more than ordinary shrewdness. It is in fact asserted by more than one highly situated functionary, that the conferences at Zurich, which until now, have not decided anything, so far from giving the Emperor any uneasiness, as it is asserted in good faith by foreign writers, turn out exactly as he had forseen; that is to say, that nothing will come out of them, and that another Conference will have to take place, where the other great powers will be represented, and where Austria will have to yield the greatest part of her claims on Italy.

It is not difficult indeed to believe, that Napoleon III. knew from the beginning, that the Italians would never consent to the restoration of the archdukes, and he readily consented at Villafranca to a condition, which he knew could not be fulfilled. As it is known he has since declared publicly, that he would not allow Austria to use the force of arms to bring back the exiled sovereigns to the seat of their former government. It will be found by and by, that Francis Joseph has been duped by his unscrupulous adversary after having been beaten by him.

It has ever been the fate of the house of Hapsburg to be in trouble about Italy, which has cost her more sacrifices than it would ever repay, even if things should go on smoothly. The founder of the house, the great Rudolf, shrank from Italy, which had engulfed so many German armies and been the ruin of more than one Emperor. He wisely resolved not to have anything to do with the Italians, turned his attention to the prosperity of his German states, and lucky would it have been for his successors if they had maintained the same policy.

Summer is nearly over and *villegiature* is drawing to an end. The country birds are flocking back to the great city, where they will have something else to speak about, than of Italy. The land of the Scipios has been cast in the shade by that of Confucius, and the recent events at the mouth of the Peiho are the general topics of the day.

There is no doubt but that a regular army will be sent to reinforce the French forces in China, to teach the Celestials to behave in the future with more good faith. The English have been in truth, the principal victims of the treachery of the Chinese, but the European prestige has suffered a severe blow, and might not be restored by the English alone. Once more then, the armies and the fleets of the two great rival nations will act together, and this time in aid of civilization. This new expedition may have also the effect of cementing more closely the alliance between England and France, which was in danger of being shaken, owing to the fears of the one and the rodomontades of the other. It is said that Prince Napoleon will accompany the expedition. This unfortunate prince, possessed of a great deal of information and animated really with the best intentions, has tried at everything, and has only succeeded in making a fool out of himself. Never was a prince so unpopular, and much of his unpopularity is owed to his behavior in the Crimea, where he gained but very few laurels. A French prince must be brave if he should be nothing else, and Prince Napoleon, in this respect, is said to resemble very little the sons of Louis Philippe, who all had their share of perils in Africa.

The prince of Joinville owed his popularity to a few shots exchanged with the English in the gulf of Mexico. In France, "ridicule kills," as has been said long ago, and Plon-plon, has been ridiculed in such a way, that he may never get the better of it.

Prince Metternich is at present the hero of our aristocratic circles, and the Emperor seems to have taken quite a fancy to him. It will be remembered that the father of the present prince had been a great favorite with Napoleon I., who really loved him. This did not prevent Metternich from being the principal agent in his overthrowing. The son is said to have inherited of the diplomatic talents of his father.

Portraits of the Imperial Prince are to be seen at the windows of all picture dealers. His Imperial Highness is over three years old, and begins to attract the attention of the world. In contemplating the charming face of the heir of the mighty empire of the Franks, one is reminded of the unfortunate King of Rome, son of Napoleon I., who died wearing the Austrian uniform. Two others *enfants de France*, celebrated in their time by the first poets, and once heirs to the same monarchy, Henry de Bourbon and Louis Philippe d'Orleans, are to-day exiled from the land where they were destined to reign. What will be the fate of this scion of the Bonapartes?

The largest vessel in the French navy is building, and will bear the name of Magenta. It is also said that if the Great Eastern is successful, a similar monster ship will be built by government for the transport of troops.

A THRILLING CASE OF SOMNAMBULISM occurred in Detroit on the night of the 25th ult. A female form was seen on the top of a building, walking to and fro, on a narrow ridge-board which covered the apex of the roof, around which she passed with ease, placing one hand upon its top, and walking down the sloping roof to get around. Once in this spectral walk she paused at the edge of the roof and looked straight ahead. The body of the walker, at times, bent forward in such a way that the upper portion hung over the abyss, while the fingers reached out, until there was no further reaching, and they clutched again with a quick, convulsive grasp, and were withdrawn. The form was motionless a moment, and then commenced its walk, again, continuing as far as the middle of the roof, when it turned toward the rear of the house, and moving down the slope of the roof was lost to sight. She descended through a skylight to her own room, and was found sitting on the side of the bed, wide awake, and in a state of mind bordering on distraction. She had no knowledge of the occurrence, but had been awakened by the noise of her employer entering the house, and found herself standing in the middle of her own room, in the condition described. The girl had been suffering from a brain fever, from which she was gradually recovering."

CIVILIZING UNDER DIFFICULTIES.—A southern gentleman lately related an anecdote, which would indicate that some of the newly imported Africans may require more efficient instruments for their training and civilization than have usually been relied on for imbuing our southern-born negroes with the virtues of activity and fidelity. A planter ordered two of these sons of the East, who are uncorrupted by the strange abolitionism which pervades some of the plantations. As they entered the yard, a bloodhound, one of the instructors and police of the establishment, regarding them as intruders, leaped upon one of them. The fellow was a large muscular negro, and belonged to a tribe who sharpened their teeth.

Nothing daunted by the attack, he entered upon the contest with the greatest zeal. So successfully did he use his fists and heels and pointed teeth, that the fierce dog was obliged to cry for mercy. The animal even slunk away under the building, but the negro crept in after him, dragged him out, and would have killed him had he not been stopped. The astonished planter looking upon his pounded and maimed bloodhound, and then upon the triumphant African, reflected a moment and gave orders for his new couple to be marched away from his premises forthwith. He dare not trust the civilizing influences which he had at his disposal.

Douglas' Chances for the Presidency.

Col. Benton once said that Mr. Douglas' coat tail was too close to the ground for him ever to be President.

The *Mobile Tribune* says that the Southern community are beginning to be extremely weary of Senator Douglas. No wonder. *The Memphis Avalanche* says:

"If the Dred Scott decision is to be trampled in the dust, and the sacred right of property, the protection of which is one of the first duties of government, repudiated, for heaven's sake let the infamous outrage be committed in the name of Black Republicanism instead of Democracy."

The Hon. Eli Shorter, M. C. from Alabama, says.

"Douglas is a great man in many senses of the word; great in talent; in oratory, in ambition, and in treason to the South and his old party, which has showered its honors upon him. But he will find that the State Rights Democratic party is far greater than himself. He stands not a shadow of a chance for the nomination at Charleston. I would as soon expect to see that Convention nominate Seward, Hale, or Giddings, as Douglas. *I would vote for one of them as soon as I would vote for him.*"

A SINGULAR CASE.—There is a young lady residing in the West end who has no less than *seventeen* lovers. For several days past they have been quarreling among themselves as to who had the best claims to her affection. Last evening they chanced to meet, and, after talking the matter over, agreed to submit the case to Squire John McFall. The Squire settled the matter, outside of his legal capacity, by giving the young lady into the hands of one of the party, who by-the-by, was fortunate enough to possess her daguerreotype. All hands were satisfied.—*Cincinnati paper.*

A man by the name of Ross has invented quite a novel machine for the prevention of burglary. By means of wires from each window, the opening of any shutter or door, attached, is immediately communicated to the instrument, which is placed in the sleeping room, the alarm is given, the lamp lighted, and the door or window indicated simultaneously. The instrument does not at all interfere with the every day opening or closing of the doors, and can be thrown off or attached at will, by the simple movement of a bolt or pin.

There is a printer in Utica who has just finished walking six hundred miles before breakfast. He commenced 17th of April last, and has walked every morning before breakfast, from two to ten miles, the average being four miles per day, twenty-five miles per week, at the least calculation. He has gained both flesh and strength since he began.

There was a severe snow storm in the White Mountain district last Wednesday, and the snow is a foot deep in some places above the ledge, on the path from the glen. The old residents say that never, since 1816 and 1817, has there been weather of equal severity at so early a period in the season.

Jesse Hathaway of Savoy, Mass., realized from 11 hens, between Feb. 1, and Sept. 25, 133 dozen and 4 eggs, and also raised three broods of chickens.

Miss Adelaide Briggs of Freetown, died on the 4th inst., in consequence of injuries received by her clothes taking fire on the 14th ult.

The Governor and Council of New Hampshire have appointed Thursday, November 24th, as Thanksgiving Day in that State.

A young man having advertised for a wife, received word from 18 married men that he might have theirs.

Great Indian Remedy
FOR FEMALES.
DR. MATTISON'S INDIAN EMMENAGOGUE is a new and elegant medicine, designed EXPRESSLY FOR FEMALES. It is prepared from an Indian plant, which has been used by the natives for the same purpose for time immemorial, and is now for the first time offered to the public. A knowledge of this wondrous plant was obtained from the late SKENANDOAH, an Oneida Chief, who lived near Syracuse, N. Y., to a very great age. It is neatly put up, in two ounce bottles, with full directions for using, and is warranted to cure any case of obstruction of the MONTHLY SICKNESS—often in TWENTY-FOUR HOURS, and that, too, after all other remedies have been tried in vain. This may seem incredible, but if it fail in ANY case THE PRICE WILL BE REFUNDED. It will also prevent obstructions, if taken a day or two BEFORE the monthly period, and is therefore of the greatest value to married ladies wishing to avoid the accidents to which they are liable.
PURELY VEGETABLE, CONTAINING NOTHING IN THE LEAST INJURIOUS TO HEALTH, AND MAY BE TAKEN WITH PERFECT SAFETY AT ALL TIMES.
LADIES, therefore, in want of something RELIABLE, had better send for the INDIAN EMMENAGOGUE, instead of wasting time and money in trying other things, which are always either unsafe or uncertain, and therefore NEVER be relied on as is this GREAT REMEDY. Sent by express to all parts of the country.
SOLD ONLY AT DR. MATTISON'S REMEDIAL INSTITUTE for SPECIAL DISEASES, No. 28 Union street, Providence, R. I.
CIRCULARS giving full information, with references and testimonials; also a pamphlet on the DISEASES of WOMEN, and on Private and Chronic Maladies generally, sent free by enclosing a stamp to Dr. H. N. MATTISON, as above.

Steamer Canada arrived here at 11 a. m., Thursday, bringing Liverpool dates to the 24th ult.

The principal item of intelligence is the discovery of the fate of Sir John Franklin.

The screw steamer Fox, Capt. McClintock, sent by Lady Franklin to the Arctic regions in search of traces of the Franklin expedition, returned to England, having been completely successful. At Point William, on the north-west coast of King William's Island, a record was found dated April 25th, 1848, signed by Captains Crozier and Fitzjames. The record says that the Erebus and Terror were abandoned three days previously in the ice, five leagues to the N.N.W., and that the survivors, in all amounting to 105, were proceeding to Great Fish river.

Sir John Franklin had died June 11th, 1847, and the total deaths to date had been nine officers and fifteen men. Many deeply interesting personal relics of the expedition were found on the western shore of King William's Island, and others were obtained from the Esquimaux, who stated that after the abandonment one ship was crushed in the ice and sunk, and the other was forced on shore, where she remains.

The Fox, unable to penetrate beyond Bellot Straits, wintered in Brentford Bay, and the search extending into the estuary of the Great Fish river, including the discovery of 800 miles of coast line uniting former explorations, was performed by sledge journeys during last spring.

Minute and interesting details of the expedition are published. Several skeletons of Franklin's men, large quantities of clothing, &c., and a duplicate record up to the abandonment of the ships, were discovered.

From Washington.

WASHINGTON, Oct. 8.—Information has been received here, that as soon as Col. Sumner heard of the attack on the Santa Fe mail, with fatal results, he dispatched a company of dragoons to Pawnee Fork to punish the offending Indians. Hopes are entertained that this prompt action on the part of Col. Sumner will result in the capture of the murderers, and the rescue of the passengers by the overdue mail. It will probably be found necessary to station troops at Pawnee, to escort the mail thence to Cold Spring, and thus obviate the recurrence of such outrages.

VESPER GAS LIGHT.

The cheapest and best light in use. This is the universal commendation of all who have tried it; while those who have used it longest are still more enthusiastic in its praise. There are few luxuries that afford more satisfying pleasure than a brilliant and safe light; such an one may now be had by all. If any are inclined to be skeptical in regard to it, let them call at

No. 150 Thames Street,

and satisfy themselves. The style of fixtures resemble those of coal gas; the shape of the flame is the same, it has less flicker, is more brilliant, while it costs less than half as much. All who are in want of a beautiful light, will do well to call soon. Any who may desire it can have them put up at their rooms on trial free from charge.

Having purchased the Patent Right for the State of Rhode Island, we are now prepared to sell VESPER GAS FIXTURES of all styles and prices. Also County and Town rights for sale. BEACH & TOBEY.

THE

GREAT WONDER

OF THE NINETEENTH CENTURY.

PROFESSOR WOOD'S HAIR RESTORATIVE.

SAYS the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, MAINE, Jan. 29, 1859.

Professor O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative and used it. I soon found it was proving what I had wished I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the grey or white hair has totally disappeared both on my head and face, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours, A. C. RAYMOND,

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

THEIR PARTICULAR SPHERE

It is not claimed that they will cure all diseases, but those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the 1st and 3d alternately, are best; if for Liver Complaint, &c., the 2d; or Dyspepsia, (when inveterate,) the 2d and 3d in alternation, are more successful. In moderate cases, *one* will suffice.

There are three Preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants, (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been twenty failures.

A CARD TO THE LADIES.

DR. DUPONCA'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully eeacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart. Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Order for the trade so addressed will be supplied at lowest manufacturer's prices. A. M. BININGER & Co.

(Established 1778,)

SOLE IMPORTERS,

No. 338 BROADWAY, N. Y.

This DELICIOUS TONIC

especially designed for the use of the MEDICAL PROFESSION and the FAMILY, possesses those *intrinsic* medicinal properties (Tonic and Diuretic) which belong to an **Old** and **PURE GIN**. The business of manufacturing spurious gins, and offering them as beverages, under the titles, "Aromatic,"—"Cordial,"—"Medicated," etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a *new era* in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other CAUTION unnecessary.

The Family Cathartic PILL is a gentle but active Cathartic which the proprietor has used in his practice more than twenty years. The constantly increasing demand from those who have long used the PILLS and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all.

The Profession well know that different Cathartics act on different portions of the Bowels.

The FAMILY CATHARTIC PILL has, with due reference to this well established fact, been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are good and safe in all cases where a Cathartic is needed, such as Derangements of the Stomach, Sleepiness, Pains in the Back and Loins, Costiveness, Pain and Soreness over the whole body, from sudden cold, which frequently, if neglected, end in a long course of Fever, Loss of Appetite, a Creeping Sensation of Cold over the body, Restlessness, Headache, or weight in the head, all Inflammatory Diseases, Worms in Children or Adults, Rheumatism, a great Purifier of the Blood and many diseases to which flesh is heir, too numerous to mention in this advertisement. Dose, 1 to 3.

PRICE THREE DIMES.

The Liver Invigorator and Family Cathartic Pills are retailed by Druggists generally, and sold wholesale by the Trade in all the large towns.

Miscellaneous.

THE GREAT FOUNTAIN OF HEALTH.

VANDERVEER'S SCHIEDAM SCHNAPPS.

Is a luscious tonic, stimulating invigorant and health-giving drink, and is prepared at Schiedam, in Holland, under the immediate direction of Old Vanderveer himself. It is distilled from the best barley, flavored with the best Juniper berry, and impregnated with a variety of herbs of highly medicinal properties, by a process of steeping known only to its inventor.

AS A MEDICINE.

It is the only Gin in Holland recommended by the faculty there, and the importers have the authority of the leading physicians of Germany and America, to recommend it for the Cure and Prevention of the following diseases: Asthma, Debility, Heartburn, Diarrhoea, Indigestion, Dropsy, Loss of Appetite, Dyspepsia, Natural Decay, Dysentery, Nervous Headache, Eruptions, Physical Prostration, Fever and Ague, Rheumatism, Female Irregularities, Rupture, Gout, Salt Rheum, Stricture, Hypochondriasis, Colic, Decline, Affections of Bladder, Affections of Kidneys, " " Urinary Organs, " " Glands, " " Generative Organs, " " Stomach, Affection of the Joints.

AS A DRINK,

It is at the same time pleasant, palatable and stomachic; it counteracts the effects of over-indulgence and excess, and being free from injurious particles, it is not an intoxicating beverage, and is, without doubt, the safest as well as the most harmless alcoholic drink in existence; it may safely be taken by the young and old of both sexes.

FOR THE LADIES,

It may be termed the Guardian of Health, being restorative and soothing as well as stimulating and tonic, and invaluable for its regulating properties in all cases of functional derangement, so incident to their sex.

FOR THE NURSERY,

While marvelous in its effects for the relief of pains in the stomach and bowels, it is more powerful than any vermifuge for the expulsion of worms, in children of all ages.

HOWARD ASSOCIATION.
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœ, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onaism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important [illegible] despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.
